POMPEIAN MASSAGE CREAM

is today indispensable on the dressing table of gentlewoman or gentleman. Not only does a Pompeian Massage perfectly cleanse the skin, but it removes wrinkles and blackheads, takes out stiffness of the facial muscles, animates the tissues, and makes the flesh firm and solid. Men use Pompeian Cream after shaving—it flexes the muscles and takes away shaving soreness. Most women recognize the value of this preparation in maintaining a clear and healthy skin.

H. W. SCHABERG HONORED

Legal Fraternity Present Him With a Solid Silver Set on Retirement

H. W. Schaberg was given a complete surprise in the Superior Court room last Saturday morning in being presented with an elegant solid silver set by the members of the San Francisco bar and bythe legal fraternity of San Mateo County. Judge James M. Allen, one of the prominent attorneys of the San Francisco bar, made the presentation speech on behalf of the legal fraternity of both places. He was felicitous and delivered a splendid speech. He spoke most glowingly of the courtesy and geniality shown by Mr. Schaberg to the members of the legal profession with whom he come in contact, and the duties of his position. It was a pleasure, said the Juge, for the lawyers to come in contact with one upon whom they could so thoroughly rely as well as saving of time and trouble to the busy counsel. Mr. Schaberg was completely surprised, and as soon as he recovered briefly thanked Judge Allen and the members of the bar who were present.

Judge Buck, from the bench, supplemented the remarks of Judge Allen by saying that Mr. Schaberg had lightened the duties of the Court in many ways, and because of his knowledge and accuracy the Court depended upon him in regard to the details in matters of court procedure. Judge Buck also said he felt that the retiring clerk was entitled to the thanks of the litigants who had appeared in Court, as by honesty and fairness he fully protected their interests in the matters which passed through his hands. He never questioned Mr. Schaberg on important papers passing through his hands. He could always rely upon what he said.

of his questioned in any way, and with the reputation of being one of the best county clerks in California. The members of the local bar and some of the legal fraternity of San Francisco felt that Mr. Schaberg should not be allowed to leave office without taking into private life a substantial token of the high esteem in which they held him. The service is of solid silver and consists of a coffee urn, tea pot, cream pitcher, sugar bowel, spoon holder and tray of old English oak and silver.

NOTICE TO ARCHITECTS

Inviting Competitive Plans, Designs and Specifications for proposed New Court House Building at RedwoodCity.

Office of the Clerk of the Board of Supervisors of the County of San Mateo, State of California, Redwood City, California, December 3, 1906.

The Board of Supervisors of San Mateo County invites certificated architects to submit original designs, plans and specifications, and estimates of cost in competition for a new Courthouse to be located at Redwood City. The lot is 200 feet by 300 feet, forming a full block, and known as the Courthouse Block. The new building will face south on the 200-foot frontage.

There is now in place the foundations, basement walls, and dome, the same having been constructed for the new Courthouse building recently demolished.

The Board leaves to the competing architects as much freedom in design and construction as is possible, making only the following suggestions, subject however, to the use of present foundations, basement walls and dome now in place, so far as the same may be made practicable, in the construction of the proposed new building; the floor beams to be placed in a position not exceeding a six-foot span; there also being now on hand, rescued from the wreck of the former building, a large amount of materials, consisting of stone veneer, wood work, brick, etc.; it being the desire to use as much of said materials as can be made serviceable in the new building; and special attention is hereby called to these matters.

The further suggestion is made that the rear portion of said building shall be made square instead of circular, as formerly, and that portion thereof extended for a distance of 14 feet further back; the building also to be supplied with conduits for gas, electricity, and telephone service (it being the intention to use an intercommunicating telephone system), and to be heated by a hot water system.

The building is to be of steel frame construction two stories high, with basement, and constructed of brick with stone veneer, and built throughout with fire-proof materials, the basement to be the same as the present; the first story to be not less than 14 feet high; the second story to be not less than 15 feet high; foundation walls to be—inches thick; first story walls to be 21 inches thick and second story walls 17 inches thick. The building to be used for general county purposes; to contain the usual offices for conducting county official business, including a Board of Supervisors room and a Superior Court room. The cost of the building complete, excepting movable furniture, and not including the foundations, basement walls and dome, to be based on a total valuation of $125,000.00.

All designs, plans and specifications submitted to be drawn to a scale of one-eighth inch to one foot, and to be made and submitted on tracing cloth 25 by 30 inches in size; also six sets of blue prints of the same, together with type-written estimates of cost, permanently bound at the top and delivered flat. The drawings, plans and specifications must include a basement plan, first and second floor plan, a front and side elevation and cross-sections through the center of the building at right angles to the front and longitudinally; also one perspective elevation of the south and west frontages, together with six unmounted photographs or reproductions of the same to accompany and be bound with each set of blue prints. All designs, plans and specifications will be received and must be presented, and the designs, plans and specifications that may be accepted will be adopted, subject to the following conditions: That the designs, plans and specifications so accepted by said Board, together with the working drawings and specifications which will be made in connection therewith, shall be subject to competitive bids by contractors, and they, said designs, plans and specifications, must be so drawn that the accepted bid upon said designs, plans and specifications will be within the estimate of the architect drawing the same, and not to exceed the sum of $125,000. In the event that the contract shall be let within the estimated sum of the architect whose plans have been so accepted, then and in that event, the successful architect so furnishing the said accepted designs plans and specifications will be awarded the contract for the furnishing of said designs, plans and specifications and the superintendency of said building to its final completion and acceptance, at a compensation of five per cent upon the contract price, and in addition thereto, a premium in the sum of $1.00. It being distinctly understood that the architect drawing said designs, plans and specifications and presenting them to said Board, and said Board receiving and adopting the same shall not receive any compensation for so drawing said designs, plans and specifications and presenting them to said Board, unless the contract price is within his estimate, and said estimate not to exceed the sum of $125,000.00. The architect whose drawings, plans and specifications shall receive the second recommendation, shall be paid $400; the architect whose drawings, plans and specifications shall receive the third recommendation shall be paid $100. Said sums respectively shall be in full for all services rendered in the preparation of said designs, plans and specifications, and all other architects whose designs, plans and specifications that shall not be accepted and that shall not come within the first, second or third award, shall not be entitled to, and shall not receive any compensation for the services they may have rendered, or for the work performed in the preparation of said designs, plans and specifications.

All drawings, plans and specifications must be delivered to the Clerk of said Board of Supervisors on or before 10 o'clock a. m. of Monday, the 21st day of January, 1907. The Board reserves the right to reject any and all plans and designs that may be presented under this notice.

By order of said Board of Supervisors of the County of San Mateo, State of California.

Dated December 3, 1906.
H. W. SCHABERG,
Clerk of Said Board.

No Bids to Pave Roosevelt Avenue

Monday night being the time for receiving bids for rocking Roosevelt avenue, the city council held a special session for thatpurpose. But one bid was presented—that of Arnold Hess—offering to pave the street for a width of 16feet for 90 cents per running foot Mr. Hess included in his offer a number ofother estimates not called for in the published notice and for this reason his bid could not be entertained.

Conrad Hontz asked if the board would entertain a petition from the residents on the avenue to pave it from curb to curb. He was directed to proceed as he saw fit and when the interested property holders would agree on how the work should be done the council would again take the matter up.

The sumof $1800 was paid from the street fund tothe Sequoia Rock Company on account.

It was the sense of the meeting that property owners on the main street should repair the sidewalks. New walks will be ordered at a future meeting.
